# Engineered Access Solutions for Recreational Vehicles

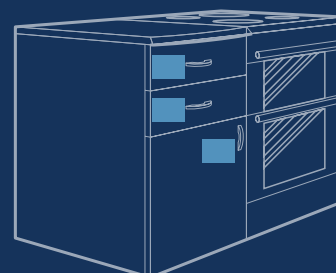

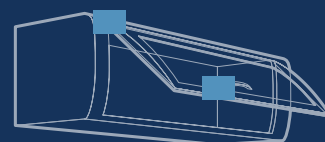

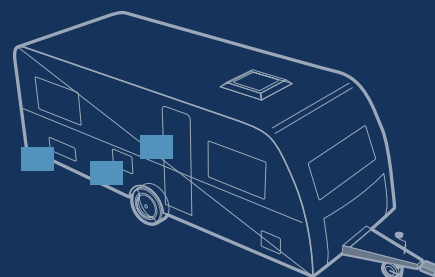

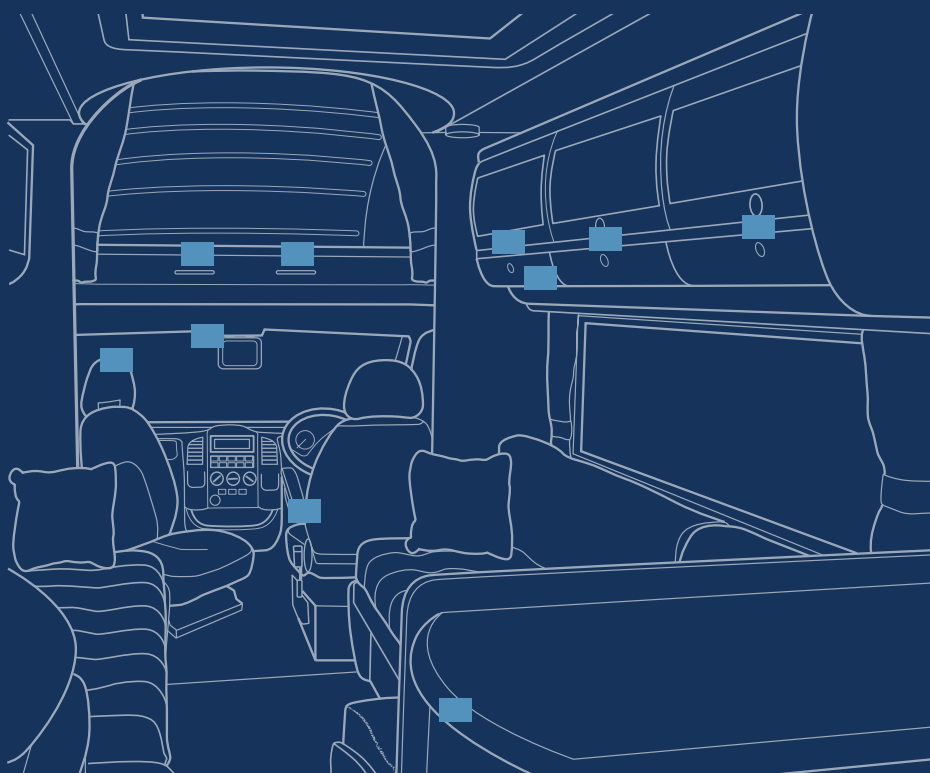

# Ergonomics. Safety. Convenience.

Creating a mobile environment where owners can rest, entertain and work no matter where the road takes them is a challenge that RV manufacturers face every day.

Southco helps the RV industry meet this challenge by supplying innovative, premium quality access hardware solutions that offer enhanced ergonomics, safety and security, and user convenience.

**Engineering, quality and support.** If you don't see what you need in our current portfolio, Southco can modify standard products or design custom solutions to fit your unique requirements. From initial design to shipping, you can expect the same level of quality and engineering support all the way through.

## Small mechanisms make a big impact.

When designing RV applications, the smallest mechanisms have the power to make the biggest impact on your customer. Southco products are often the first point of interaction that customers have when accessing the RV. We design our access hardware with the end user experience in mind, delivering reliable touch point solutions designed to deliver simple, ergonomic operation.

### Electronic Safety & Security

Electronic latching and access control allows compartments and doors to be locked and unlocked remotely for user convenience and advanced security.

### Chassis & Entry Door Solutions

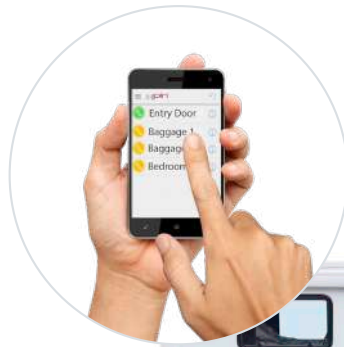

Dependable and robust hardware withstands heavy, repeated use by providing simple operation and reliable performance in any environment.

### Interior Solutions

Concealed access solutions and hardware designed with ergonomic operation provides seamless functionality and comfort, improving the rider experience.

Lock it up  
with a push  
of a button.

## Electronic Security & Safety

Southco's Electronic Access Solutions (EAS) provide an extra layer of security and safety for a variety of interior and exterior applications across the RV. Electronic locks and access controllers easily integrate with the smart RV, and deliver the same level of convenience that passengers expect from their other connected devices

### Electronic Locks

Secure and protect cabinets and panels across the RV with concealed electronic latches.

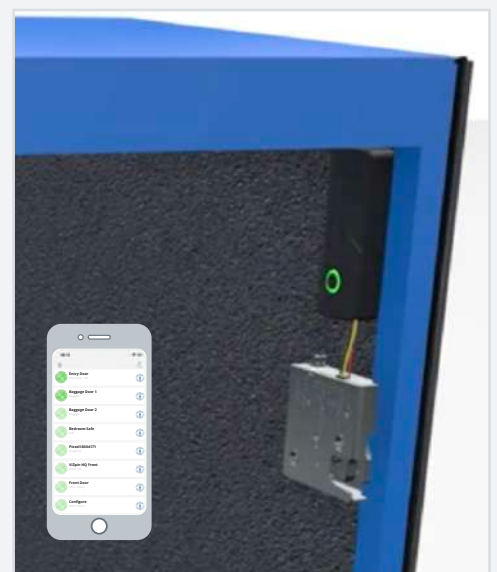

### Access Controllers

Connect electronic locks with a variety of access control devices that network directly with the RV control system.

### Remote Monitoring

Monitor RV access remotely from your phone or tablet, from anywhere in the world.

Robust and  
intuitive access.

## Chassis & Entry Door Solutions

We offer a premium quality range of interior and exterior access solutions for chassis and entry doors that are durable, stylish and easy to use.

### Entry Doors

Secure the main point of entry into the RV with rugged and dependable latching and hinging designed to last the lifetime of the vehicle.

### Baggage Doors

Open and close baggage doors with ease with latches designed with ergonomic handles and position control hinges that keep doors in place for easy loading and unloading.

### Chassis Panels

Cut down maintenance time with latching and hinging solutions designed with quick access in mind.

### Customized Solutions

If you can't find a product that suits your needs, contact us to modify one of our standard products or customize a solution for your unique application

Feel like home  
on the road.

## Interior Solutions

We offer a large selection of interior latching solutions that keep doors and panels securely closed and valuables safely hidden from view. The smooth operation of our Positioning Technology solutions enhance the safety and feel of monitors, TVs, seating and access panels. Our interior access solutions optimize space within the RV by allowing furniture to be reconfigured for multi-purpose use, and easily stowed to create a flexible and comfortable home on the road.

### Cabinets & Drawers

Create a clean aesthetic for cabinets and drawers with flush and concealed latching solutions.

### Safes & Consoles

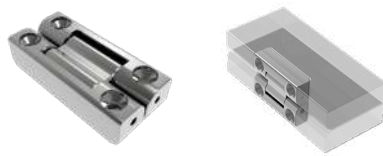

Secure access to valuables stored in safes and consoles with electronic access solutions.

### Interior Tables

Keep tables securely in place with position control hinges designed to withstand bumps and vibration.

### Modular Interior Spaces

Make heavy panels easy to lift and light weight panels feel substantial with position control hinges.

### Monitor Mounts

Easily move and position monitors and TVs into place with one hand.

# About Southco

Southco, Inc. is the leading global designer and manufacturer of engineered access solutions. From quality and performance to aesthetics and ergonomics, we understand that first impressions are lasting impressions in product design. For over 70 years, Southco has helped the world's most recognized brands create value for their customers with innovative access solutions designed to enhance the touch points of their products in transportation and industrial applications, medical equipment, data centers and more.
